

PRESSURE WASHERS

**INNOVATION.
STRENGTH.
PERFORMANCE.**

Across the globe, the Hustler® brand signifies innovation, strength, performance and superior customer care. Our mission is to provide the most dependable, useful and time-saving products in outdoor maintenance, while priding ourselves in unmatched customer loyalty.

**NOW OFFERING THE
POWER TO CLEAN**

Now Hustler® is bringing the same power and innovation to the world of pressure washing. With top quality products that meet the demands of the toughest jobs, Hustler pressure washers are strong, durable machines that provide a superior cleaning experience.

LIGHT WEIGHT AND DURABLE

AIRCRAFT GRADE ALUMINUM The majority of our pressure washer frames are engineered with lightweight aircraft grade aluminum and brushed extruded aluminum tubing. This design makes our machines lighter in weight than similar steel frame designs allowing for a greater ease of use.

In addition to being crafted from this high strength aluminum alloy, our frames are crafted with clear anodized aluminum to prevent oxidation and corrosion.

TIRE DESIGN Each one of our powerful pressure washers is assembled with premium pneumatic tires that feature chevron treading.

The development of this treading design provides increased stability and shock absorption for optimal vibration stabilization.

These innovations plus the four-ply construction provide the reliability and maneuverability you need to complete a job with ease.
